

School Book Guide

This year you will use both eBooks on the iPad and Physical Books. This guide can be used by parents/ guardians who wish to download their eBooks on to their iPad. We are using four different suppliers to ensure that our students have access to the best resources possible. Our four main suppliers are:

- Educate.ie
- Edco
- Folens
- Gill Education

Please see a guide below of how to install and download eBooks from each of the three suppliers.

** Please note that if you have not yet purchased the physical books you will not be able to download the eBooks using the instructions below. As per the stationary list work books are needed for some subjects. These need to be physical books that can be left in classrooms and written in by students therefore an eBook version will not suffice. Please note that not all books on the stationary list are available in eBook form and therefore a physical book must be purchased. **
