

# School Book Guide

This year our 1<sup>st</sup> and 5<sup>th</sup> year students will use both eBooks on the iPads and Physical Books. Class tutors will help students to download their books during induction, but this guide can be used by parents/guardians who wish to download their eBooks on to their iPad outside of school hours. We are using four different suppliers to ensure that our students have access to the best resources possible. The four suppliers are:

- Educate.ie
- Edco
- Folens
- Gill Education

Please see a guide below of how to install and download eBooks from each of the three suppliers.

*\*\* Please note that if you have not yet purchased the physical books you will not be able to download the eBooks using the instructions below. If you do not intend to purchase physical books you will need to go to the websites below to purchase a license to download only the eBook. As per the stationary list work books are needed for some subjects. These need to be physical books that can be left in classrooms and written in by students therefore an eBook version will not suffice. Please note that not all books on the stationary list are available in eBook form and therefore a physical book must be purchased. \*\**
